MARKET PULSE — Weekly Trading Report

Sunday 21 June 2026

OUTLOOK · NEUTRAL-BEARISH

MACRO THEME

Warsh FOMC hawkish hold Jun 17: dot plot flips with 9/18 members projecting a 2026 hike, easing bias removed. Gold almost hit 4,150 target (low 4,139). NAS100 quad-witching surge +2.48% on Jun 18 distorted the hawkish signal. UK CPI missed consensus. ECB Sintra Jun 24-25 is the next major catalyst.

OVERVIEW

The FOMC on June 17 delivered a unanimous hold at 3.50-3.75% but the dot plot shifted hawkish: 9 of 18 members project at least one rate hike before end 2026. Warsh replaced easing bias language with 'The Committee will deliver price stability.' Gold and silver crashed post-announcement; XAUUSD target 4,150 was delivered (low 4,139 on Juneteenth Friday). UK CPI May came in at 2.8% headline (below 3.0% consensus), stopping out the GBPCAD long. US Retail Sales May +0.9% MoM validated the hawkish backdrop. NAS100 quad-witching expiration (rolled from Juneteenth Fri to Thu Jun 18) generated record volume and a +2.48% squeeze that stopped out the NAS100 short. US30 printed a new year-to-date ATH of 52,281 before reversing on the hawkish FOMC. ECB Sintra Forum June 24-25 is the key near-term event for GER40 and EUR pairs. US PCE May on June 26 is the dominant end-of-week catalyst.

Price action: US30 printed a new year-to-date ATH of 52,281 on Jun 17 pre-FOMC, then reversed sharply on the hawkish dot plot to close 51,492. Jun 18 quad witching recovered to 51,565 close. ATH rejection upper wick is technically bearish. Fundamentals: FOMC hawkish hold 9/18 hike dot; easing bias removed. US Retail Sales +0.9% strong but already priced. Industrial/value composition provides resilience vs tech but ATH rejection is the dominant near-term signal. Outlook: NEUTRAL-BEARISH. Sell rallies above 51,900 stop 52,100 target 51,202. Key catalyst: US PCE May Jun 26.

Expiration distortion — not directional conviction. Fundamentals: FOMC hawkish (9/18 hike dots) is a structural headwind for high-multiple tech. AI capex narrative intact. Quad witching fades next week. Outlook: NEUTRAL. Wait for direction — above 30,587 re-tests ATH 30,762 (LONG), below 29,968 resumes bear to 29,446 (SHORT).
