MARKET PULSE — Mid-Week Trading Report

Wednesday 21 October 2026

OUTLOOK · NEUTRAL-BULLISH

MACRO THEME

Rotation trade intensifies as Dow surges 530 points on strong industrials earnings and easing oil; NAS100 stabilises below 30,000 with META earnings the binary catalyst for the back half. Gold grinds lower as 10Y yield holds above 5.10%.

OVERVIEW

The rotation from overvalued tech into industrials, energy, and healthcare confirmed itself this week with the Dow surging 530 points Tuesday on strong 3M (+5.8%) and Northrop Grumman (+4%) earnings. NAS100 bounced modestly from its -7.3% peak-to-trough correction but the recovery is fragile — NFLX disappointed after hours Tuesday and META reports tonight. The AI de-rating remains the dominant theme, with questions around AI capex ROI unresolved. Oil easing from $110 toward $100 supports sentiment. 10Y yield at 5.12% keeps rate-sensitive assets under pressure. Fed hike probability for 28 October has fallen to 17.2%. France unrest adds European political risk. Flash PMIs Friday are the macro event of the week. Gold grinds toward $4,100 as real yields bite.

TOP CONVICTION TRADES

#1 US30 LONG

ENTRY	TARGET	STOP
52,200-52,350	53,200	51,900

Rotation from tech into industrials/defensives is structural and confirmed by Tuesday's 530-point surge on strong 3M and Northrop earnings. Oil easing supports transport components. Fed hike probability falling (17.2%) is a dovish tailwind. Q3 earnings beat rate strong in Dow components. Fresh entry at higher levels reflecting the confirmed trend. R:R ~1:2.5.

#2 XAUUSD SHORT

ENTRY	TARGET	STOP
4,150-4,170	4,050	4,200

Manage/add to 04 Oct legacy short (entry 4,200-4,220, now in profit ~$66-86/oz). Rising real yields (10Y at 5.12%) are overwhelming headwind. Geopolitical premium deflating. Trail legacy stop to 4,180 to lock in gains. Add on rallies with tight stop for measured move to 4,050. Break of 4,100 accelerates. R:R ~1:2.5 on the add.

#3 AUDUSD SHORT

ENTRY	TARGET	STOP
0.7020-0.7030	0.6950	0.7050

Fade the 0.7000 breakout. Legacy 04 Oct short stopped at 0.7030. Fresh tactical fade: META tonight and TSLA Thursday are binary risk-off catalysts. If either disappoints, AUDUSD reverses below 0.7000 quickly. China concerns and RBA on hold provide no fundamental support. Tight stop above 0.7050. R:R ~1:2.3.

Bounce from 29,000 looks fragile. 30,000 is broken support now resistance. 3-day NEUTRAL-BEARISH: manage Sunday conviction short (triggered near 29,500-29,710), tighten stop to 29,850, target 28,500. META/TSLA earnings are binary risk-off catalysts. 3-day NEUTRAL-BEARISH: fade the breakout, sell 0.7020-0.7030 stop 0.7050 target 0.6950. A confirmed close above 0.7050 flips bias.
